Professional summary

I am an extremely detail-oriented Data Analyst with Bsc in Information Technology degree and hands-on experience in developing business intelligence systems, SQL-based reporting applications, and real-time analytics dashboards. Expert in SQL, Power BI, Python, Excel (Advanced), ETLs, and Data Visualization. Have experience in turning the data sets into meaningful information using dashboards, data cleaning, and reporting.

Technical Skills:

- **Data Analytics & Reporting:** Power BI, KPI Reporting, Dashboard Development, Data Visualization, Data Cleansing, Data Transformations, Reporting Automation.
- **Programming & Databases:** SQL, T-SQL, Python, MySQL, MongoDB, Oracle Database, Firebase.
- **Software:** Excel(advanced), Pandas, Apache Kafka, Git and GitHub, Google App Script, REST APIs

Professional Experience

ClearVue Business Intelligence & Analytics System

Data Analytics & Data Engineering Project | July 2025 – November 2025

- Designed interactive Power BI dashboards for KPI tracking, sales monitoring, and business performance reporting.
- Used Python and Pandas to develop ETL workflows to cleanse, transform, and process sales data.
- Leveraged SQL, MongoDB Atlas, and Apache Kafka for implementing real-time analytics and reporting systems.

- Performed data modeling and designed reports to enhance reporting effectiveness and accuracy.
- Troubleshooting data quality issues and optimizing analytics workflows in collaboration with colleagues.

SNEAKY FINDS PTY LTD (Full Stack Developer) [18 Jan 2025 – December 2025]

- Handled the Firebase databases and maintained accuracy in orders and customers data management.
 - Enhanced reporting by implementing admin dashboards and real-time inventory tracking features.
 - Performed SEO on-page practices like meta tags, semantic HTML structure, and keyword optimizations for improving visibility on e-commerce platform.
 - Provided business insights based on customer and order data.
-

Major Projects (Video links in Portfolio website)

SQL Database Engineering and Reporting Project

- Developed more than 50 queries using joins, subqueries, aggregations, GROUP BY, HAVING clauses, and various reporting queries.
- Created reporting workflows to perform business analytics and reporting operations.
- Optimized the developed queries for increasing database efficiency.

API-driven Movie Reviews Data Integration (NYT & TMDB)

- Created automated workflows for extracting data from websites using Google Apps Script and REST APIs.
- Used New York Times and TMDB API integration to create structured datasets.
- Implemented JSON Parsing, keyword filtering, and Spreadsheet automations.

Technologies: Google Apps Script (JavaScript), REST APIs, JSON, Google Sheets, Data Automation, ETL, Data Processing.

Education and Certification (View on my Portfolio Website):

Bachelor's degree in Information Technology | North-West University | Vanderbijlpark, (February 2023 - 2025)

- Introduction to SQL, SoloLearn, 7 January 2025
 - FNB App Academy 2025 | Full Stack Developer, 24 July 2025
 - Diploma in Quantum Computing & Programming | QSouthAfrica, July 2023
